Michael P. Zahalsky, MD

Education

| | | |
|--|----|----------------------|
| Brown University School of Medicine, Providence, RI | MD | 9/5/1995- 5/25/1999 |
| Brown University Graduate Program in Epidemiology and Gerontology | MD | 9/5/1995 – 5/25/1998 |
| Brown University – Triple Concentration: Biology, Biomedical Ethics, Health and Society | BA | 9/3/1991 – 5/29/1995 |

Employment

| | | |
|--|--|-------------------------|
| Michael P. Zahalsky, M.D. P.A. | | 7/01/05 – Present |
| Clinical Professor at Florida Atlantic University | | 2013 – Present |
| Clinical Professor at Nova SouthEastern University | | 2015 - Present |
| Medical Director of Urologic Oncology North Broward Medical Center | | 2009 – 2013 |
| Boston University, Department of Urology Fellow in Male Infertility and Male and Female Sexual Dysfunction | | 7/01/04 – 6/30/05 |
| Post-Doctoral Fellow at the Whitehead Institute, Massachusetts Institute of Technology Researching the genetics of male infertility arising from the X-Chromosome | | 7/01/04 – 6/30/05 |
| Beth Israel Medical Center, Department of Urology Urology Chief Resident | | 7/01/03 – 6/30/04 |
| Beth Israel Medical Center, Department of Urology Urology Resident | | 7/01/00 – 6/30/03 |
| Beth Israel Medical Center, Department of Surgery Surgical Intern | | 7/01/99 – 6/30/00 |
| National Youth Leadership Forum on Medicine Faculty Advisor at Simmons College for high school seniors interested in pursuing a career in medicine | | 6/95 - 8/95, 6/96 –8/96 |

| | |
|---|-------------|
| Brown University Teaching Assistant for Brown University course "Social Science Research in Health Care" | 1994, 1995 |
| Brown University Medical School and Undergraduate Tutor | 1994 - 1997 |

Licensure

| | |
|--|-------------------|
| American Board of Urology – Board Certified | 02/20/2007 |
| American Board of Urology Written Qualifying Exam | Passed 08/06/2004 |
| American Board of Urology Oral Qualifying Exam passed | 02/20/2007 |

Honors/Awards

| | |
|--|-----------------|
| Medical Director of Kidney Stone Institute of Florida | 8/06 –Present |
| Principle Investigator for Geriatrics and Urology Grant | 8/04 - 6/05 |
| From the American Geriatric Society Teaching Boston University Urology Residents the importance of Geriatrics Ferdinand C. Valentine Fellowship for Laboratory or Clinical Research in Urology from the New York Academy of Medicine studying “X-Linked Testis Genes and Human Spermatogenic Failure” at the Laboratory of Dr David Page, Howard Hughes Medical Institute, Whitehead Institute, and Department of Biology, Massachusetts Institute of Technology | 7/01/04 - 6/05 |
| Journal of Urology - Reviewer | 2/2004 -Present |
| Journal of Endourology – Reviewer | 2/2005 –Present |
| American Society of Andrology – Traveler’s Award Recipient | 4/2005 |
| Winner of Urology Chief Resident Debate held by New York Section | 2/2004 |
| Pfizer Scholar Award for outstanding Academic/Scholarly activity | 7/2003 |
| American Medical Association Physician’s Recognition Award | 5/2003 |

Pfizer Scholar Award for outstanding
Academic/Scholarly activity

7/2002

Society of Reproductive Surgeons 2002 Traveler's Award Recipient to the 100th Annual Meeting of the American Urological Association

Society for Male Reproduction and Urology 2001 Traveler's Award Recipient to the 57th Annual Meeting of the American Society for Reproductive Medicine

Beth Israel 2002 Annual Essay Contest Third Place Winner for "The Bacterial Effects on Semen Motility." Research contest for all residents at Beth Israel Medical Center

Ferdinand C. Valentine Essay Research Paper award recipient in 2001 for "Prostate Cancer Screening Practices of Primary Care Physicians and Urologists." Urologic research contest for all urology residents in the New York City area.

Laparoscopic training second place award recipient in 2001 for excellence in laparoscopic surgical skills. Competition for all surgeons from all specialties throughout New York City.

Recipient of the 1999 Gerontology Center Prize, Brown University School of Medicine, awarded for outstanding performance in clinical and research activities in geriatrics and gerontology

Sigma Xi National Scientific Honorary Society

Who's Who Executive and Professional Registry 2005-2006

Who's Who in America 2004-2005

Publications

"Effects of Stem Cell Treatment in Human Patients with Peyronie's Disease"

Michael P. Zahalsky, Jason Levy, Melissa Marchand, Leanne Iorio, Gilles Zribi

Published in [The Journal of the American Osteopathic Association](#)

October 2015 Vol 115; No.10

"Determining the Feasibility of Using Stem Cells to Treat Erectile Dysfunction in Humans"

Michael P. Zahalsky, Leanne Iorio, Walquiria Cassini, Lauren Pomerantz

Accepted and Pending Publication in [The Journal of the American Osteopathic Association](#) 2015

"Endocrine Disorders"

Michael P. Zahalsky, Andre Guay

Chapter 14 in [Male Sexual Dysfunction](#)

(Eds) Krane, Siroky, Goldstein (Pub) Churchill Livingstone.

Pending Publication 2005.

"The Physiology of Ejaculation"

John Mulhall, Michael Zahalsky, Robert Oates

Chapter 3 in [Male Sexual Dysfunction](#)

(Eds) Krane, Siroky, Goldstein (Pub) Churchill Livingstone.

Pending Publication 2005.

“Male Infertility on the Internet”

Michael P. Zahalsky, Sean Wilson, Stephanie K. Lam, Christopher Diblasio, Harris M. Nagler
British Journal of Urology January 2005.

“The Risk of Epididymal Injury During Hydrocelectomy and Spermatocelectomy”

Zahalsky, M., Berman, A., Nagler, H.
Journal of Urology. 171(6): 2291-2292, June, 2004.

“The Adolescent Varicocele: Diagnostic and Treatment Patterns of Pediatricians. A Public Health Concern?”

Kabal, A., Nagler, H., Zahalsky, M., Budak, M.
Journal of Urology. 171(1):411-413, January, 2004.

“Ultrasound: applications to the diagnosis and treatment of male infertility”

Zahalsky, M.P., Berman, A.J., Nagler, H.M.
Contemporary Urology October, 2004.

“Pediatricians Need to be Educated about Varicoceles”

Zahalsky, M., Nagler, H.
American Infertility Association Newsletter 2004.

“Distinguishing splenosis from renal masses using ferumoxide-enhanced magnetic resonance imaging.”

Berman AJ. Zahalsky MP. Okon SA. Wagner JR.
Urology. 62(4):748, October, 2003.

“The risk of epididymal injury during hydrocelectomy and spermatocelectomy”

Zahalsky MP, Nagler HM
Fertility and Sterility Vol. 80 Supplement 3. September, 2003.

Smoking and Urology

“Cigarettes: What the Warning Label Doesn't Tell You”

Zahalsky, M., Nagler, H.
Editor and Reviewer of chapter
Published by The American Council on Science and Health, 2003.

Smoking and Urology and Male Reproduction

“Cigarettes: What the Warning Label Doesn't Tell You. Information Tobacco Companies Don't Want Teens To Know About the Dangers of Smoking”

Zahalsky, M., Nagler, H.
Editor and Reviewer of two chapters
Published by The American Council on Science and Health, 2004.

Diagnosis and Treatment of the Infertile Male

Zahalsky, M., Nagler, H.
Practical Cases in Urology, Series XXV, 2002.

“Morphology and the Sperm Penetration Assay”

Michael P. Zahalsky, Edward Zoltan, Nadine Medley, Harris M. Nagler.
Fertility and Sterility, Volume 79, Number 1, January 2003.

“Male Infertility on the Internet”

Michael P. Zahalsky, Stephanie K. Lam, Christopher Diblasio, Harris M. Nagler
Fertility and Sterility, Volume 78:1001:S33, 2002.

“Sertoli Cell Only Syndrome”

Zahalsky, M., Nagler, H.

AUA News, 7(5). August 2002.

“Kruger morphology predicts outcome of sperm penetration assay: true or false?”

M.P. Zahalsky, E. Zoltan, N.E. Medley, S. Goldberg, H.M. Nagler

Fertility and Sterility, Volume 76:3 (Supplement 1) : S257

“Ultrasound and Infertility: Diagnostic and Therapeutic Uses”

Zahalsky, M., Nagler, H.

Current Urology Reports, Volume 2, Number 6, December 2001

“The Role of Ultrasonography in the Evaluation of Infertility”

Zahalsky, M., Nagler, H.

American Infertility Association Newsletter Vol. 9, Sept., 2002.

“Laparoscopic Cholecystectomy Approaching the New Millenium; How Far Have We Come?”

Lichten, J., Zahalsky, M., Reed, J., Freidman, R.

Surgical Endoscopy, August 2001

Presented at 7th World Congress for Endoscopy and
Society for Gastro-Endoscopic Surgeons: Meeting of the Millenium

Presentations/Posters

"Early stem-cell development in peyronie's disease"

10/15

at IV Medical Sexology Congress World Association of
Medical Sexology

Michael Zahalsky, MD

Oral Podium Presentation at IV Medical Sexology Congress

10/15

World Association of Medical Sexology

"Safety Profile of Stem Cell Injections in Men with
Peyronie's Disease and Erectile Dysfunction"

Oral Podium Presentation at 79th Annual Meeting
of the Southeastern Section of the American Urological
Association

03/15

"Determining the Effects of Stem Cell Treatment on
Peyronie's Disease in Humans"

Oral Podium Presentation at the American Urologic
Association in Orlando

05/14

"Determining the Feasibility of Using Stem Cells to Treat
Erectile Dysfunction in Humans"

Poster Presentation at the American Society of
Andrology

4/05

“Androgen Replacement Therapy for Men Previously

Treated for Prostate Cancer”

Oral Podium Presentation at American Urological Association’s 102nd Annual Convention 5/04
“Post Mortem Sperm Acquisition: Opinions of the General Population”

Oral Podium Presentation at the American Society for Reproductive Medicine’s 59th Annual Convention 10/03
“The Risk of Epididymal Injury During Hydrocelectomy and Spermatocelectomy”

Poster Presentation at American Urological Association’s 101th Annual Convention 4/03
“The Use of Ultrasonography in the diagnosis of Varicoceles”

Oral Podium Presentation at the American Society for Reproductive Medicine’s 58th Annual Convention 10/02
“Infertility on the Internet”

Poster Presentation at the American Society for Reproductive Medicine’s 58th Annual Convention
“Effects of Height and Weight on the Incidence and Significance of Varicoceles” 10/02

Poster Presentation at American Urological Association’s 100th Annual Convention 5/02
“The Adolescent Varicocele: Diagnostic and Treatment Patterns of Pediatricians – A Public Health Concern?”

Poster Presentation at American Urological Association’s 100th Annual Convention 5/02
“The Bacterial Effects on Semen Motility”

Poster Presentation at American Urological Association’s 100th Annual Convention 5/02
“Patient Driven Management of Low Volume Ejaculates”

Poster Presentation at the American Society for Reproductive Medicine’s 57th Annual Convention 10/01
“Kruger Morphology Predicts Outcome of Sperm Penetration Assay: True or False?”

Presentation at the Ferdinand C. Valentine Essay Meeting 3/01
“Prostate Cancer Screening Practices of Primary Care Physicians and Urologists”

Numerous Grand Rounds Presentations for Beth 7/00 – 6/05

Israel Department of Urology on topics such as:
Ureteropelvic Junction Obstruction, Transitional Cell
Carcinoma, Infertility Options in Men with Testicular
Cancer, and Antibiotic Prophylaxis During
Transurethral Procedures

Additional Research Projects

Department of Urology, Boston Medical Center

Researcher 7/04 – 6/05
“Correlating Age and Testicular Biopsy Results, in a
Population of Klinefelter Patients”

Researcher 7/04 – 6/05
“Androgen Supplementation after Prostate Cancer
Treatment”

Department of Urology, Boston Medical Center

“Urachal Remnants: What Is the Appropriate
Management?” 6/03 – 6/04
Submitted Journal of Endourology

Researcher 09/03 – 06/04
“Post Mortem Sperm Acquisition: Opinions of the
General Population”

Researcher 5/00 – 6/02
“Prostate Cancer Screening Practices of
Primary Care Physicians and Urologists”

Data Manager 11/00 – 6/04
Designing and compiling with Dr. Harris Nagler,
Chairman of the Department of Urology, Beth Israel
Medical Center, an infertility database of over 4000
patients

Department of Urology, Rhode Island Hospital 2/98 - 5/99
Research Assistant with Dr. Barry Stein, Surgeon-in-
Chief, Department of Urology, Rhode Island
Hospital, correlating clinical outcomes of cases of
prostate cancer undergoing prostatectomy with the
presence or absence of molecular markers on tumor
cells

Department of Epidemiology and Gerontology, 1/96 - 5/98
Brown University
Graduate Thesis
Graduate student determining the feasibility of

applying the Independent Living Model of selfdirected decision making for allocating services within the disabled population

Division of Community Health, Brown University
Research Assistant with Dr. Vincent Mor comparing the outcomes among multiple post-operative treatment regimens in elderly women with newly diagnosed breast cancer 1994

Division of Community Health, Brown University
Research Assistant with Dr. Vincent Mor, developing the MDS (Managed Delivery System) instrument now used nationwide as a tool to assess quality of care of residents in nursing homes 1994

Division of Biology and Medicine, Brown University
Undergraduate research project with Dr Edith Mathiowitz investigating the efficacy of using double walled microspheres to enhance time release drug delivery systems 1994

Clinical Directors Network Region II 1993

Research Internship
Awarded internship through the NYC Dept. of Health assisting in the establishment of treatment protocols and engaging in outcome studies, field support, and treatment protocol data management for community based clinical trials for AIDS patients

Volunteer Activities

Public Speaking engagements on Men's Health throughout South Florida 2005-2006

Prostate Cancer Screenings
Numerous screenings through Boston Medical Center 2004 – 2005

Avon Outreach/Ruben Lecture
Men's' Health Education Seminar
Teaching men about prostate and testicular cancer screening and erectile dysfunction 2004

Beth Israel Prostate Cancer Screening Program 2000, 2001, 2002

Adolescent Health Education Project
Taught health maintenance skills and STD prevention to adolescent boys at the Rhode Island State Juvenile Detention Center 1995 –1996

Sexual Assault Task Force, Brown University
Board Member 1992 - 1993

Student Health Advisory Board, Brown
University 1992-1995
Member of the Student Health Advisory Board
evaluating campus health services, disseminating
relevant health care information to the student body,
and conducting seminars on timely health care
issues

Organizations and Associations

American Urological Association member
Society for the Study of Male Reproduction (SSMR)
Society for the Study of Male Reproduction – Membership Committee
Society for Male Reproduction and Urology (SMRU)
Endourological Society member

Member of Beth Israel Research Coordinator
Network 1/2004 – 6/2004

Beth Israel Medical Center House Officer
representative to Beth Israel Ethics Committee 7/2001 – 6/2002

Beth Israel House Staff Committee 2000 – 2004

Founder and former Chairman of National Jewish Medical Students Caucus under the auspices of
the American Medical Students Association

Former Brown Medical School Class Advocate to the Medical Student Senate

Hobbies/Interests

Brown University Rugby Team, Northeastern Champions and Ivy-League Champions
Brown University Sailing Team
Former Greek Council Executive Board Member and Public Relations Chairman
